

Microsoft 365 Digital Workforce Workshop

Empower your people to be productive and secure from anywhere

Workshop highlights

Evaluate your secure work from anywhere options and business implications

The goal is to envision and enable the scenarios that are relevant to you

Two-day workshop leaves you with a concrete deployment plan, timelines, and next actions

Productivity and teamwork are fundamental to build resilience for your people, teams, and organization.

Learn how to empower people to be more productive and secure as they adapt to new ways of working with Microsoft 365.

With this two-day workshop, we'll show you how you can use Microsoft technologies to:

- Provide meeting and collaboration experiences to connect teams remotely and onsite.
- Secure your business with technology you can trust.
- Consolidate to one cost-effective solution to simplify IT management and reduce spending.

Why you should attend

We'll discuss the scenarios available with Microsoft 365 to enable secure work from anywhere.

We'll evaluate your options and leave you with a concrete deployment plan and next steps.

This two-day workshop is focused on identifying secure work from anywhere scenarios that align to your business needs and address the following:

01

Envision secure work from anywhere

Understand the customer objectives and envision your priority scenarios.

02

Implementation planning

Develop a plan to implement Microsoft Teams and foundational security for users, devices, apps, and data.

03

Activation and adoption planning

Define a plan including risks and mitigations for a successful deployment and adoption.

What to expect

Teamwork and collaboration are fundamental to build resilience for your people, teams, and organization. Our goal is to empower people to be productive and secure as they adapt to new ways of working with Microsoft 365.

We'll work with you to:

- Understand your secure work from anywhere goals and objectives.
- Envision priority scenarios with a customer immersion experience.
- Define existing and desired work from anywhere scenarios.
- Identify potential blockers and challenges.
- Engage in an environmental and workload analysis.
- Provide a list of actionable recommendations to implement hybrid identity, Microsoft Teams, and security.
- Develop a joint action plan based key results, recommendations, and next steps.
- Provide a Microsoft Teams and Security Adoption kit, including end user training, workload introductions, and support resources.

We'll customize the workshop based on your organization's needs

- Chief Security Officer (CSO)
- IT security
- IT compliance
- Data governance
- IT operations

Why **fitts**?

When it comes to Microsoft 365, you need an experienced partner.

We really listen to your people. Whether we're deploying digital, cloud or security solutions, our first priority is to understand your people, how they work and what they need. By fitting technology around people – and not the other way round – it becomes inclusive, easy to use and widely adopted. And that means it is genuinely transformational.

Driven by people.
Powered by outcomes.
